SUMMARY

Product and brand designer with 5 years of experience across product design, brand identity, visual design and the web, mostly as a solo generalist owning work from concept to launch. Designs in Figma and ships production websites and apps with AI-assisted development (Claude, Codex). Experience across AI, Web3, community and consumer products, with launches reaching 400K+ impressions.

EXPERIENCE

Creative Generalist, Inner Circle / First Dollar | Apr 2026 – Sep 2026

- Owned brand identity, website and launch for Build Something Wonderful, an OpenAI Fellowship; the launch post reached ~400K impressions on X (Twitter).
- Redesigned and shipped the First Dollar web product; designed and built a new mobile app direction.
- Designed and shipped the Inner Circle website; ran short design sprints with Base India.
- Led editorial and newspaper design for 100 FT Times, a 60-copy test run that drew ~200K social impressions at launch.

Product Designer, Bento.fun | Oct 2025 – Mar 2026

- Led the Bento.fun rebrand and website redesign, defining a new visual identity and positioning.
- Led product design and core user flows for the first alpha MVP.
- Produced launch video and social creative that helped grow the Telegram alpha community to 100+ users.

Product Designer, Gloww.design | Feb 2025 – Oct 2025

- Designed products, landing pages and brand assets for Web3 startups including FereAI, Base, Velar and Proxy.
- Designed and launched 5 Farcaster mini apps: Emerge, Packrippr, Hi/Lo, Facebreaker and Farfield.

Visual Designer, Farcaster Builders India | Jul 2024 – Feb 2025

- Designed community graphics and the community's first merch; supported design for FBI Africa's launch and the Base Fellowship.

Product Designer, IMURS | Aug 2023 – Jul 2024

- Built the initial website and designed MVP UI/UX, packaging and social creative.

UI Designer, Illustrake | Mar 2021 – Sep 2022

- Designed D2C websites, brand identities and ad creative for clients.
- Led UI/UX for a B2B brand-building SaaS platform from concept to MVP.

PROJECTS

MYOB (Make Your Own Breakfast), Community Recipe Platform | Designer & Builder

- Designed and built a community recipe platform with 40K+ website visitors, 50–100 daily concurrent users and ~300K launch impressions on social media.
- Shipped the iOS app, now live on the Apple App Store. Website: https://makeyourownbreakfast.in
